

Job announcement for a postdoctoral position in Technology Management

Arabian Gulf University is inviting applications for a postdoctoral position to work at the Department of business administration. The successful candidate will work on a research project dealing with Virtual Digital Innovation Lab for Leading, Managing, and Prototyping of Emerging Technologies in the GCC. This initiative is hosted under the HH Shaikh Isa bin Salman Al Khalifa Chair in Technology Management. The position will be available for two years.

Qualifications and skills:

- PhD in Technology Management or related Field (Business, IT or Engineering) completed within the past three years with a good publication record.
- A graduate from a reputable university recognized by AGU.
- At least two publications in the research area published in high-ranking journals (Q1-Q2).
- Proficiency in English

To Apply:

Applicants should send a cover letter, updated curriculum vitae, copies of MSc and PhD certificates, list of publications, and contact information of three referees (names, affiliations, phone numbers, email addresses). In the cover letter, applicants should elaborate on their research interests and achievements.
